

Karrawirra Parri Shared Path Masterplan

Project No. 23TRW / Date of Issue 20.03.25

Concept Masterplan (Not to Scale)

- Scope of Works
- Existing River Torrens Linear Park Trail
- Interfacing Developments
- DIT T2D Works
- Council Works
- Renewal SA Works
- Bridge
- Underpass
- Rest Node

- 3m wide shared path (pedestrian and bicycle) along top of Karrawirra Parri River Torrens bank
- Potential future path extension to create second underpass to South Road Bridge
- Landscape interface with future Warriappendi School campus (by DIT)
- Future pedestrian footbridge with connecting nodes (by DIT)
- Development of Ann Nelson Drive as part of DIT precinct development
- Landscaping interface with future Torrensville Bowls precinct

Potential look and feel:

- Connection into existing riverbank informal pedestrian footpath
- Existing riverbank with informal pedestrian footpath
- Node structure used to create link around existing native trees
- Node structure used to create link around existing native trees
- Redevelopment of public reserve as part of the former Thebarton campus development site

Potential look and feel:

- Custom feature pathway node to end of reserve with riverbank lookout, integrated seating, signage, public art and net hammocks
- Stepped feature nodes and ramp access to top of existing embankment
- Redevelopment of public laneway as urban plaza with integrated water sensitive urban design
- Potential discharge of laneway stormwater down embankment through vegetated water treatment ponds
- Informal path connection down to existing riverbank footpath
- Step access down to existing riverbank footpath
- Shared path continuation along Thebarton/Southwark Development*

Potential look and feel:

- Integration with future development access networks*
- Potential open space connection to riverbank
- Potential maintenance and event vehicle access from Port Road
- Potential future path continuation below Port Road Bridge (*Forms part of the Thebarton Development by Renewal SA)
