Site Strategy

The key design strategies focus on establishing a central and interconnected sports hub within the area. The master plan is centered on developing a fully accessible facility that complies with current sports standards while enhancing overall accessibility throughout the site, thereby facilitating connections between the sports fields and courts.

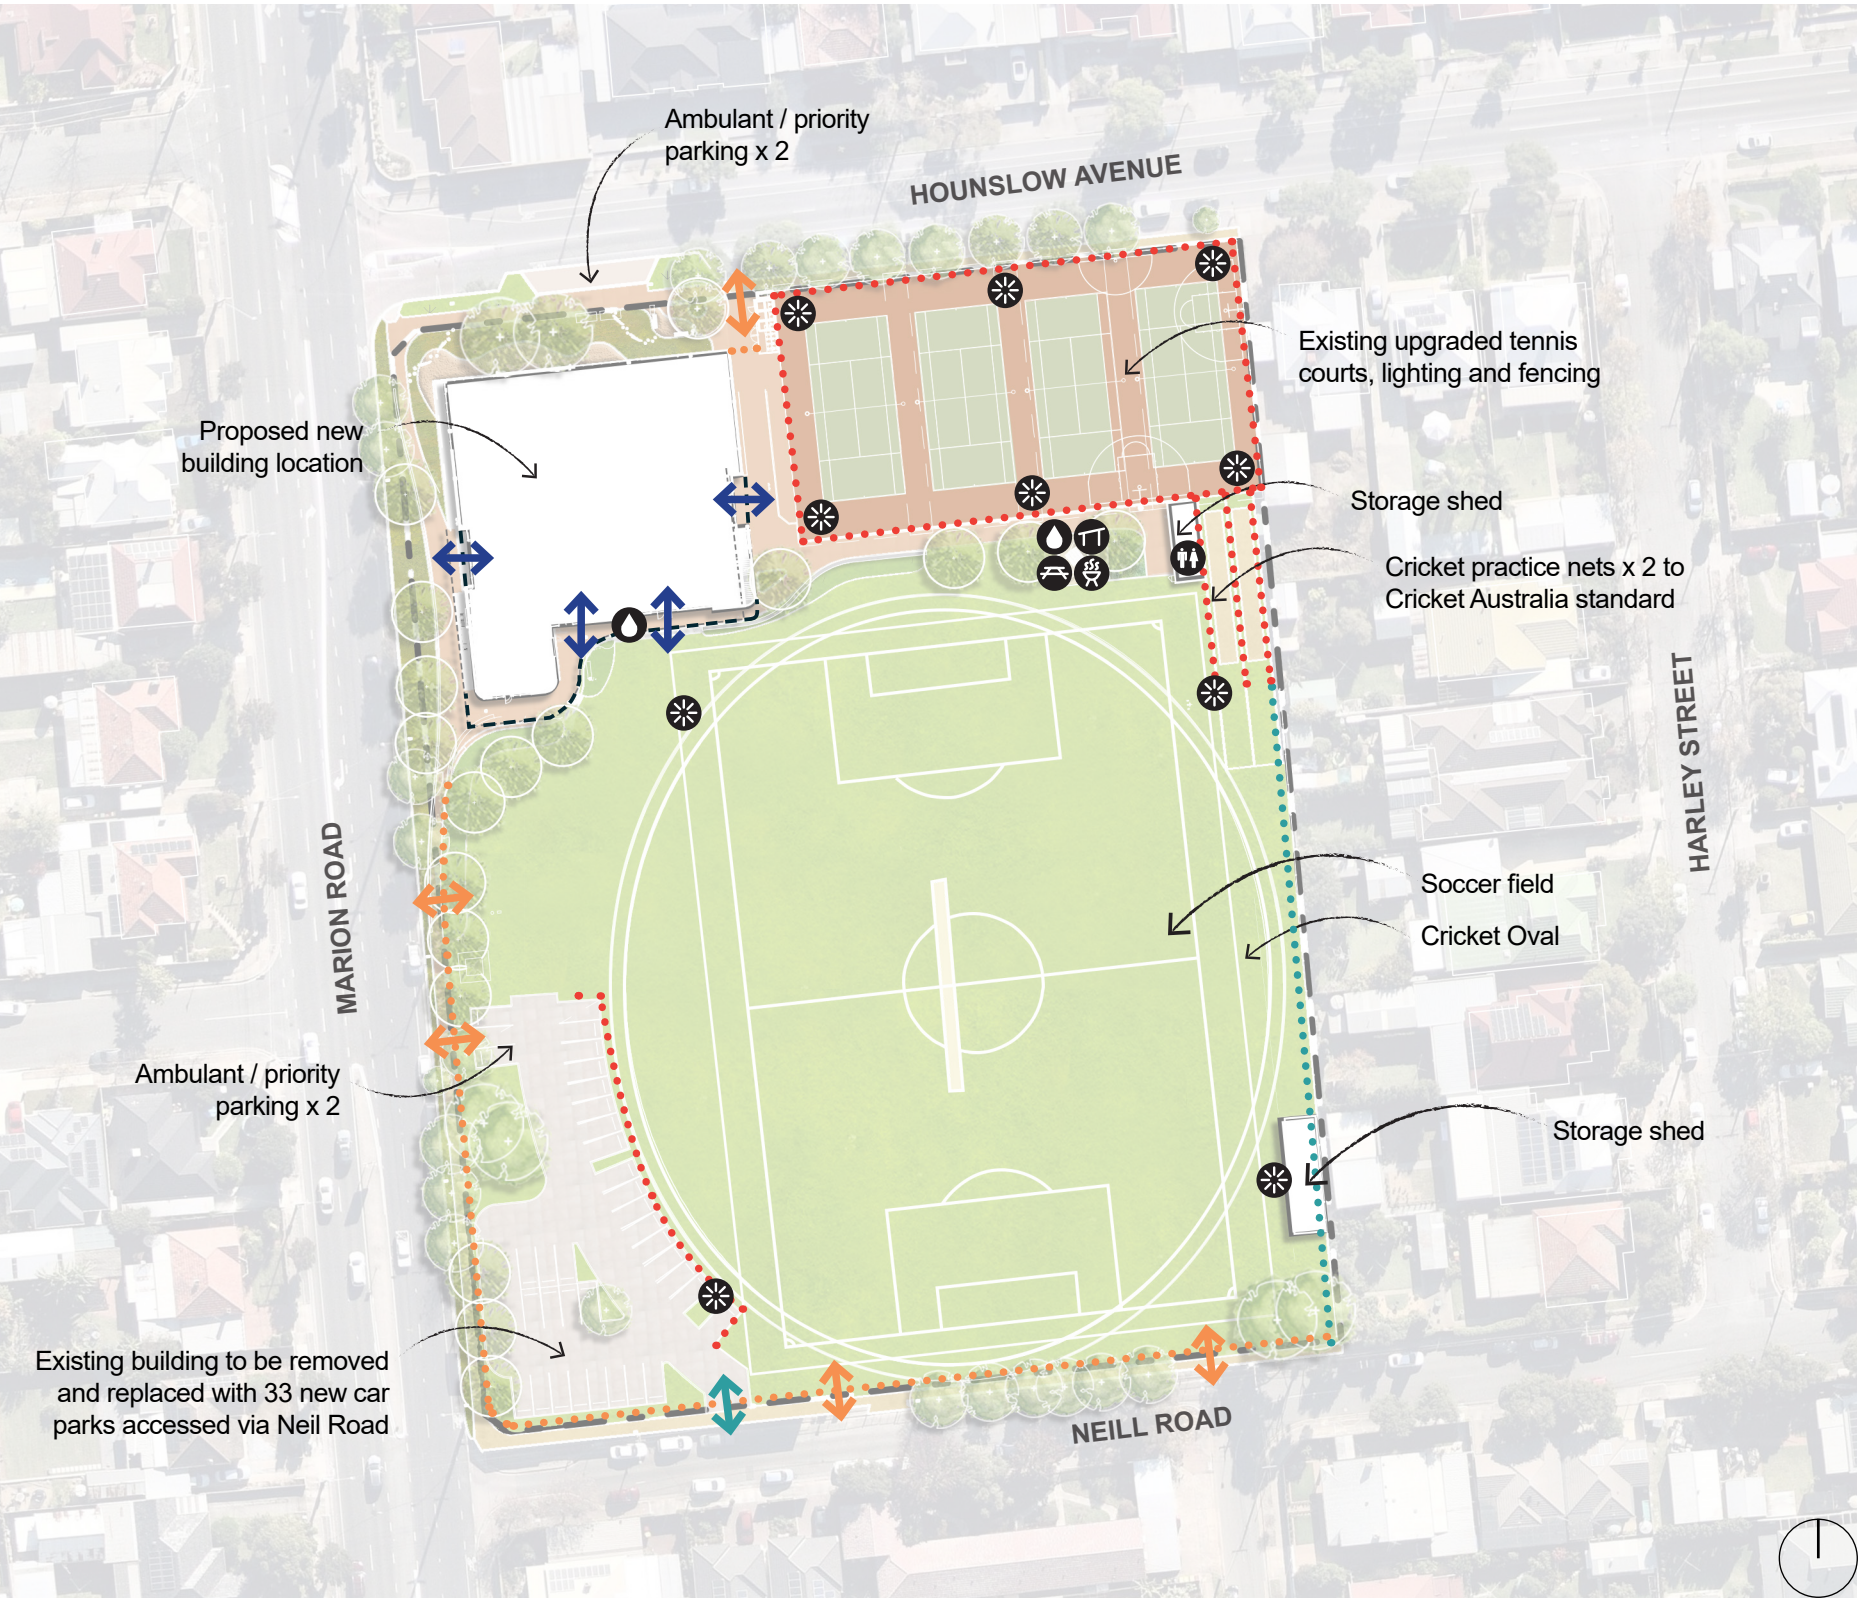

The proposed location of the new facility in the north-west corner of the site enables the inclusion of a cricket oval suitable for Open Age Community Club competition and a soccer field for full adult games. This strategic placement positions the facility at the heart of the site, fostering greater connectivity to the upgraded tennis courts. All sports disciplines will have equitable access to the new facility, which will be in-close proximity to the player changing rooms.

The existing cricket training nets will be replaced with two new full-sized training nets. Additional amenities will include new storage sheds for tennis, cricket, and soccer equipment, enhanced shade provisions, a variety of seating options, toilets, and improved on-site parking.

The landscape surrounding the new facility will be designed to create a welcoming entrance, ensuring safe and equitable access to and around the building. Spectator viewing areas and outdoor gathering spaces will be incorporated, promoting a sense of community during game days.

Legend

-  Public Toilet
-  Drink Fountain
-  Picnic Bench
-  Sports Lighting
-  Shelter
-  Barbeque
-  Low fence
-  Pedestrian gate/ entry point within low fence
-  Vehicle access point
-  High fence
-  Sports fence/netting
-  Building balcony overhang
-  Building entry

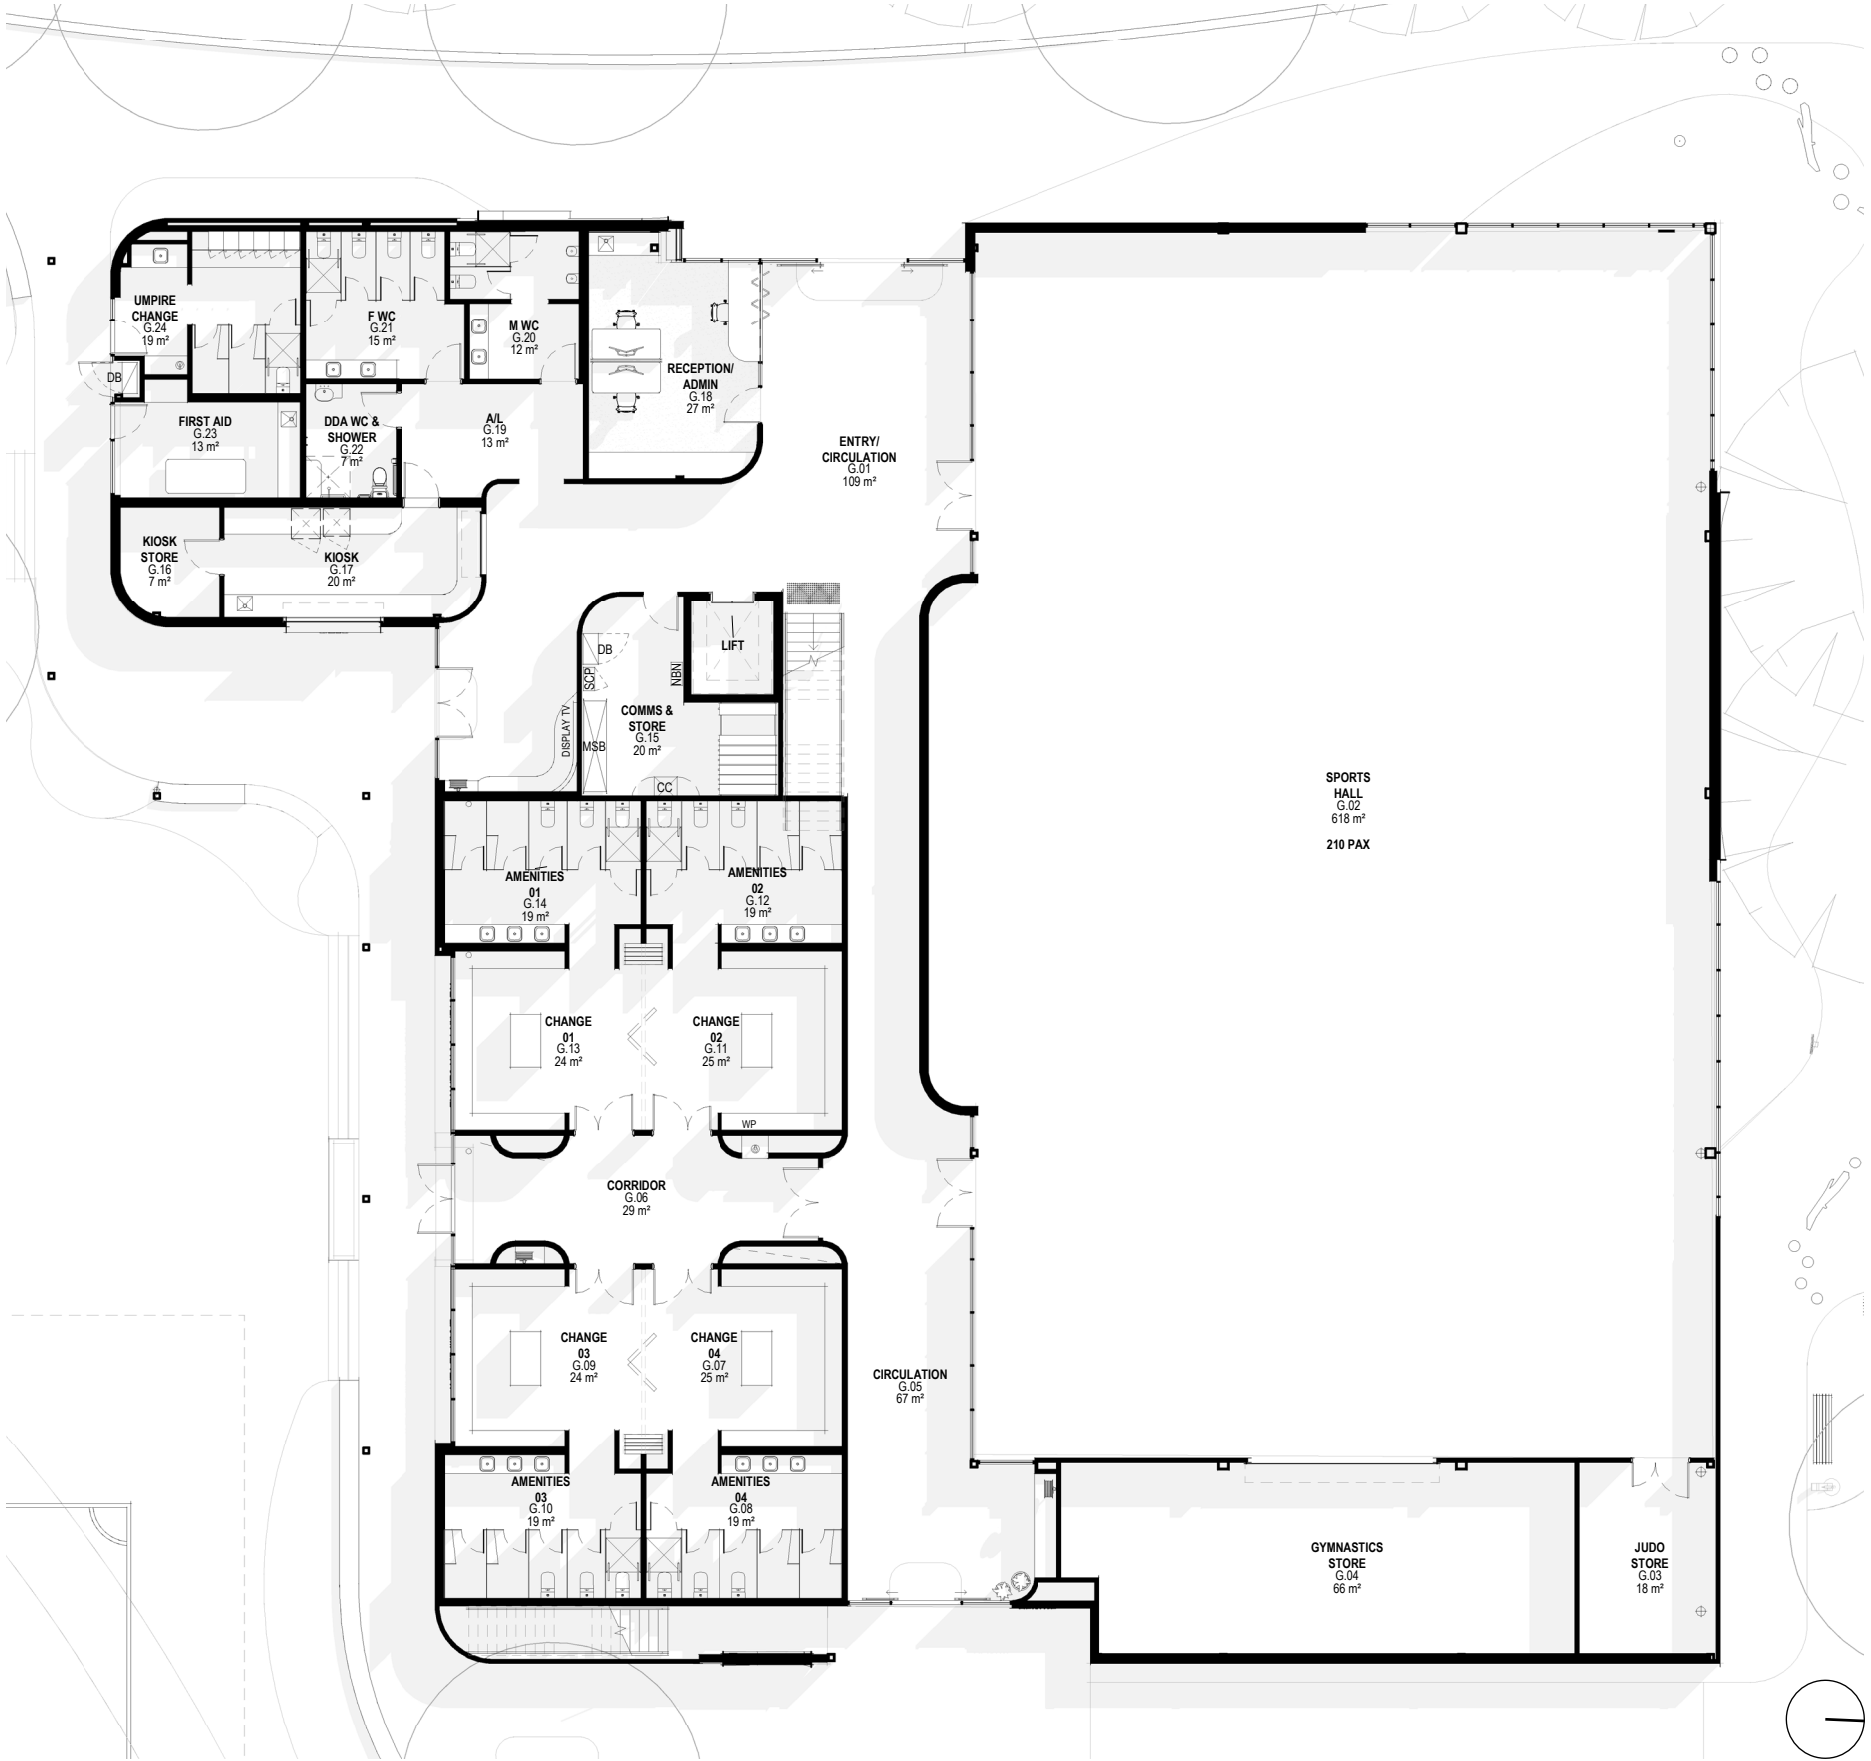

Ground Floor

The ground floor primarily accommodates spaces supporting the sports fields including player changerooms, umpire changerooms, first aid, and toilets. Additionally, the reception / administration is located adjacent the main entry to be easily accessed and best assist new building users. A kiosk on ground has an indoor and outdoor connection to best service the indoor and outdoor sports. The player changeroom layout is designed with a shared corridor, allowing equitable and safe access from the indoor sports hall, tennis courts, and soccer and cricket pitches.

Area Schedule - Ground

Main Entry / Circulation	109
Reception / Admin	27
Airlock	13
Mens Water-closet	12
Womens Water-closet	15
DDA Water-closet	7
Kiosk	20
Kiosk Storage	7
Umpire Changeroom	19
First Aid Room	13
Communications & Storage	20
Circulation	67
Changeroom 01	24
Amenities 01	19
Changeroom 02	25
Amenities 02	19
Changeroom 03	24
Amenities 03	19
Changeroom 04	25
Amenities 04	19
Changeroom Corridor	29
Sports Hall	618
Gymnastics Store Room	66
Judo Store Room	18
TOTAL	1,234

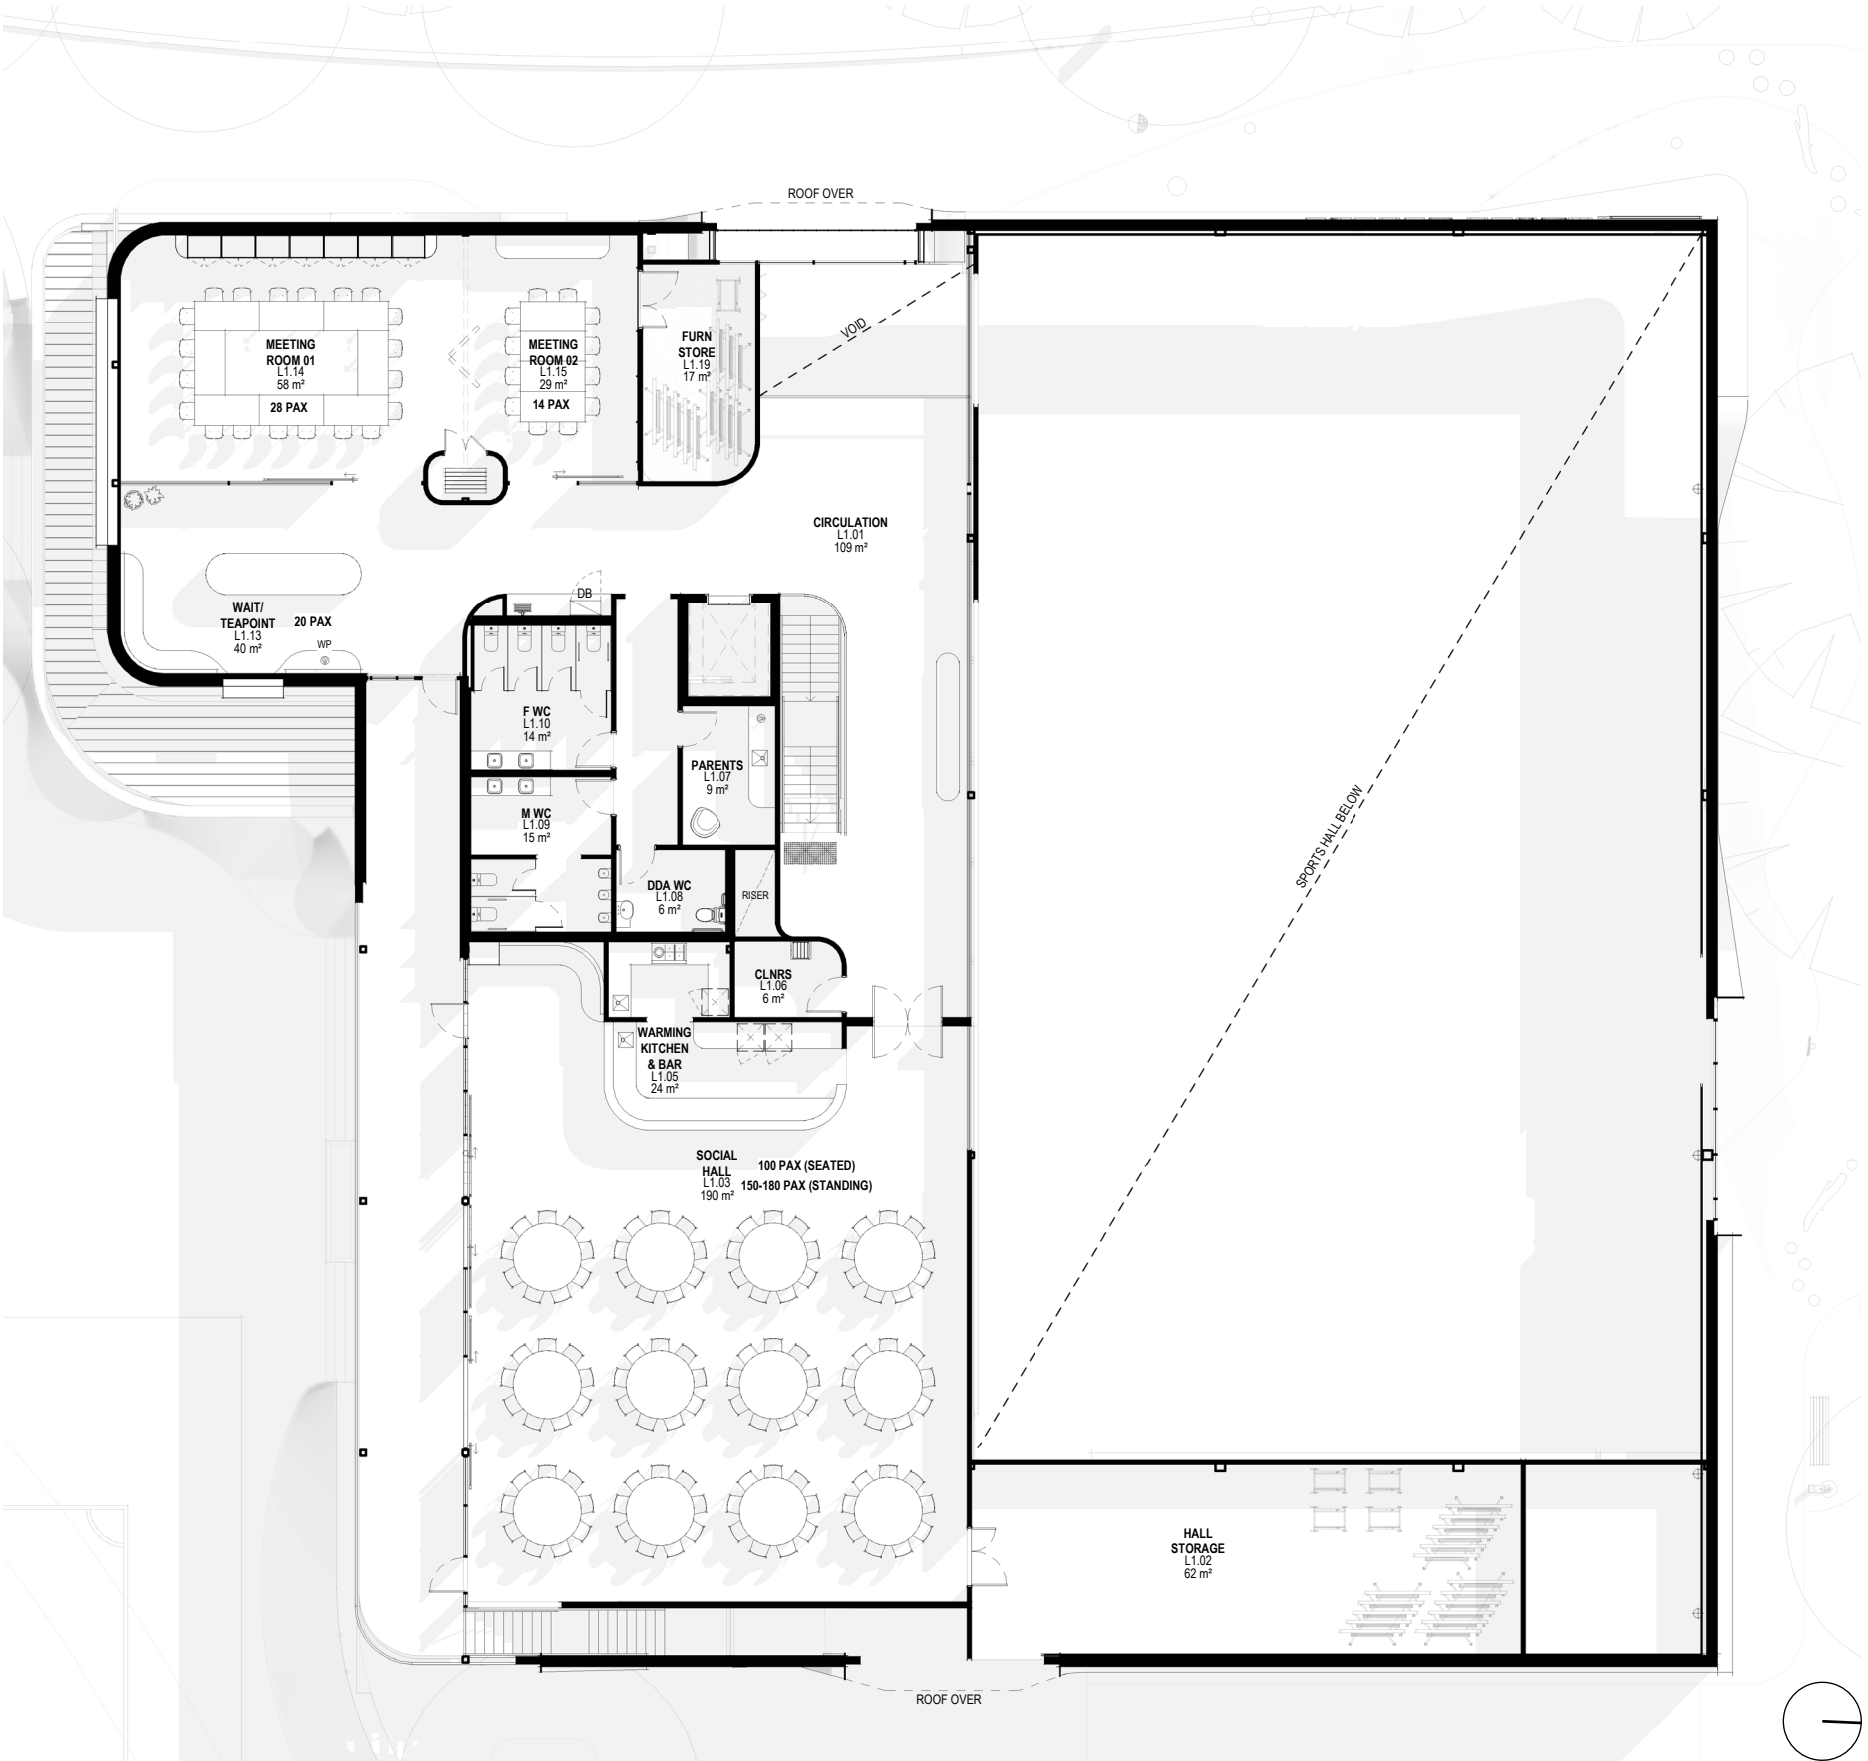

First Floor

On the upper level, users arrive via the central lift and stair with the option to navigate to the community meeting rooms or the social hall. Additionally, the generous circulation zone provides for a viewing opportunity to overlook the indoor sports hall. The social hall provides a hireable space for both the on-site sports clubs and local community, with a balcony and views over the reserve.

Area Schedule - First Floor

Circulation	109
Meeting Room 01	58
Meeting Room 02	29
Furniture Store	17
Waiting Area / Teapoint	40
