

Concept Masterplan

KEY MOVES

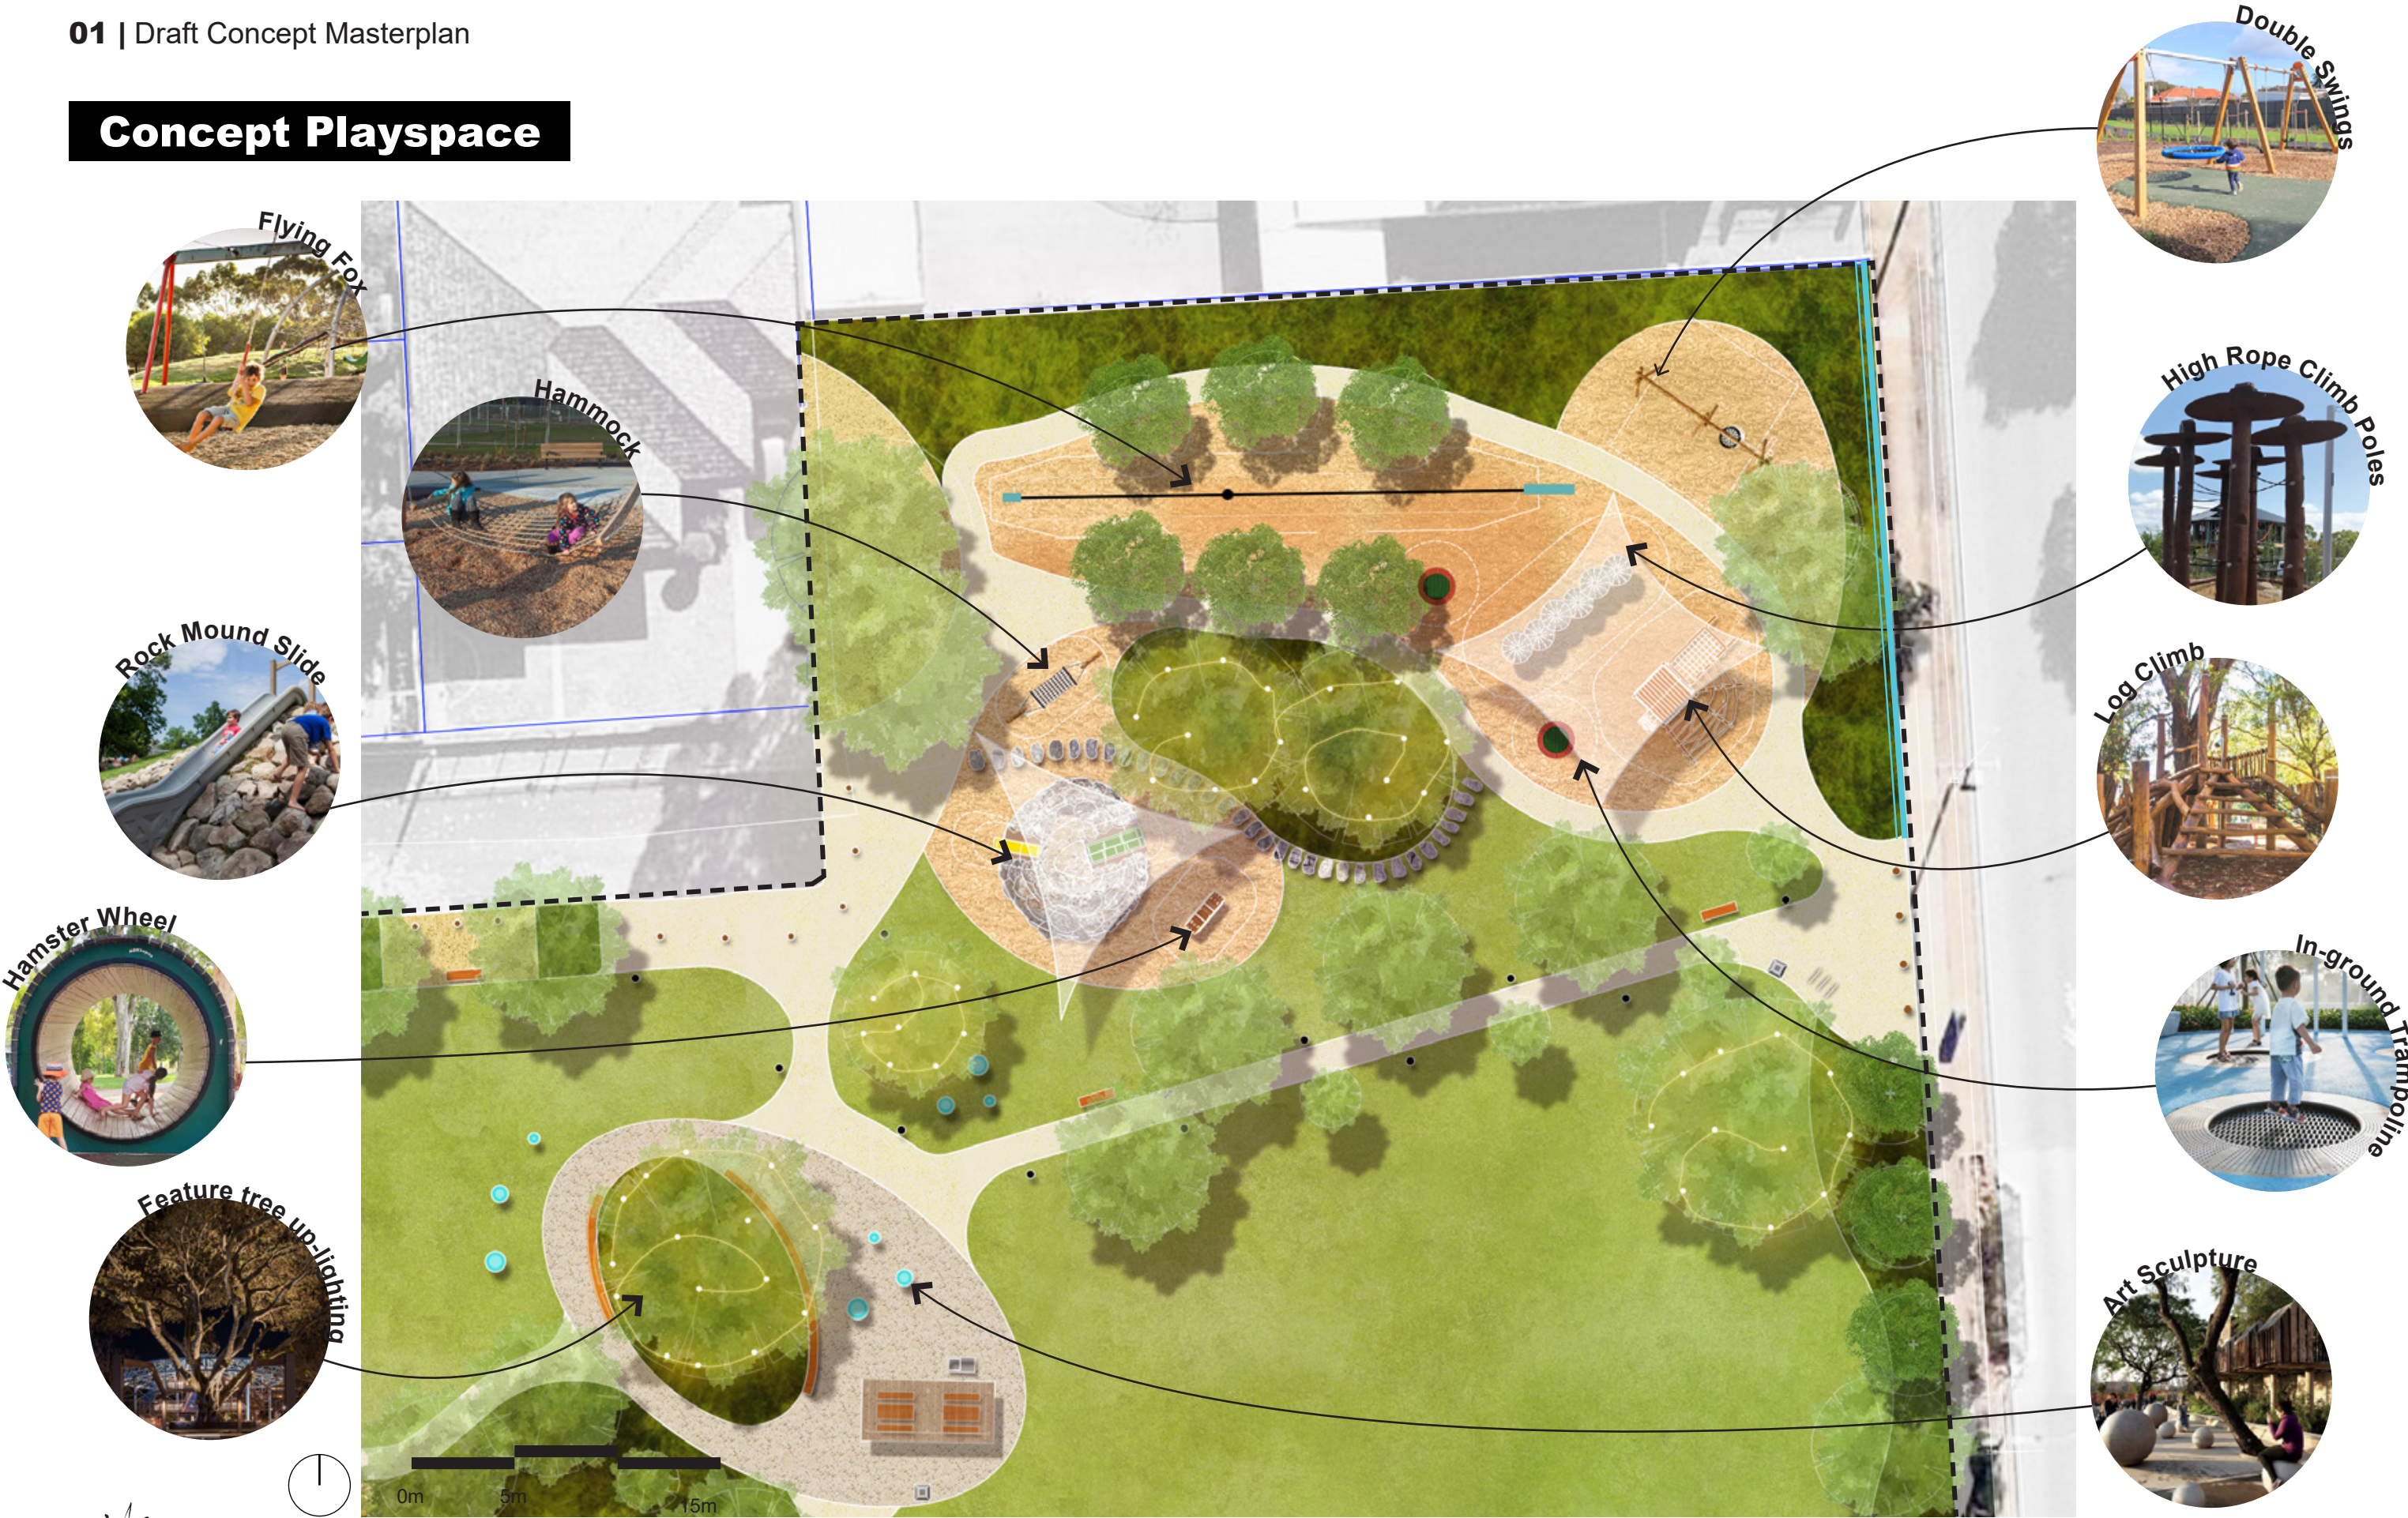

- 1 New paved central hub - with shelter, BBQ picnic tables, public art, bin, seating & power supply for community events
- 2 Herb gardens (irrigated) with raised planters
- 3 New shady 'Fig Tree Playspace' - with flying fox, swings, trampolines, hammock, slide & hamster wheel
- 4 New fitness equipment
- 5 New public toilet
- 6 Plane tree avenue retained - with new concrete paving & bollard lighting
- 7 New paved entry node with relocated bollards (to allow for garbage truck turning circle)
- 8 New insitu concrete paths (1.5m wide)
- 9 Opportunity for new WSUD and seating paved nodes to Fairfax Tce
- 10 Opportunity for upgraded entry signage
- 11 Uplighting to feature trees
- 12 New native planting to improve biodiversity
- 13 Entry node with bollards, 3 x bike racks and bin

LEGEND

	Existing playspace fence
	Existing tree
	Proposed fruit trees
	Proposed trees
	Irrigated lawn
	Understorey planting
	Insitu concrete - exposed aggregate
	Mulch
	Insitu concrete path
	Compacted granulitic sand
	Raised planters - herb gardens
	Public Art sculpture
	Bollard lighting
	Bollard
	Seats

Concept Playspace

Character

The proposed character of Frank Norton Reserve will reference the existing fig trees (*Ficus macrophylla*) and highlight them as a key feature of the reserve. The spatial configuration is also derived from the roots of the fig tree, creating curving pathways, undulating mounds for lawn and slides, and gentle depressions for sandpits. The inclusion of public art play items is a reference to Frank Norton's passion for art in the public space.

Materials & Elements

The proposed materials for Frank Norton Reserve will include predominantly raw textures and natural materials such as rocks, timber, exposed concrete, compacted granulitic sand and warm earthy tones where possible.
